

ATHEEN

BIOGRAPHY

"UK singer / songwriter / producer Atheen is a self-confessed keyboard nerd who is slightly deaf in one ear thanks in no small part to an over-zealous guitarist whose amp actually did go up to 11".

Atheen started her career on Estaloka Records, turning out white label dance tracks. During her time on AudioFile Records she released a number of singer/songwriter style tracks but is now back to doing the funky dance that she loves so much, with new releases due on Modal Records and other labels this year.
